THAILAND BOOKLETS CROSS REFERENCE TABLE

This list is an updated concise version of the Thailand section of the WORLD POSTAL BOOKLET CATALOGUE, edited by Jean Duson and Walter de Rooy, in February 1985. A detailed description of each booklet has been omitted. A booklet is easily identified by its cover (type A - X) and the subject of each stamp it contains.

As of 1979 panes come from ordinary counter-sheets. A row of 4, 5 or 10 stamps was pasted into the cover by its own margin, either on the left/upper or the right/lower side (same valuation). Up to 1982 a cover was printed for each specific stamp issue, but from 1982 (type P) a standard size 74x50 mm prefabricated cover was used to contain several successive stamp issues.

Almost all the commemorative sheet-stamps of the letter-rate denomination (75 st, 1.25b or 2.00b) are to be found in booklets, however, no booklets have been produced throughout the entire year 1985.

The booklets with cover type C - P contain commemorative stamps only. The booklets with the cover type A and B were used for definitive stamps. From cover type Q normally commemorative stamps were issued, but they also exist with definitive stamps. They were sold by vending-machines. Most of them are very rare, some may still be discovered. We therefore can't list them.

Type S exists with an overprinted cover, type T and U exist also with '5 baht'-denomination printed on the cover to continue sale by old vending-machines

Standard covers have a table of contents and/or the total face value of the booklet printed on the front cover. That front cover plus the two inside cover sides show Postal Information in Thai language, the rear cover side has advertising of various kind. On special occasions a commemorative cancel is printed on the front cover of the booklet, the stamps remain mint.

Most of the booklets have been issued in quantities of 10.000 to 30.000.
